## Introduction

### Purpose

The purpose of this document is to describe the requirement specification for the web site “Mini Story Maker”.

The intended audience for this document is for children or adults who like stories.

### Definitions, acronyms, and abbreviations

W3 Validation – refers to both Html and CSS validation tool provided by the

W3c.org. the html validator is located at:

<http://validator.w3.org/>

with the CSS validator located at:

<http://jigsaw.w3.org/css-validator/>

## Overall Description

Our site is a miniature story generator for all ages. We have a large archive of short children’s stories and our algorithm randomly chooses sentences from a few of the stories to make an entirely new one! The user will have the choice of finishing their story, and can save the finished story as well. There’s countless stories to create, so start today!
